

Ministry of Environment and Forestry
and
Ministry of Education

A JOINT PROGRAMME

**2018 Short Rains Tree Planting Campaign
October - December 2018.**

Theme: “Panda Miti, Boresha Maisha”.

2018 SHORT RAINS TREE PLANTING CAMPAIGN

1. CONTEXT

The 2018 short rainfall season is here with us and the Ministry of Environment and Forestry in partnership with Ministry of Education is coordinating tree planting campaign through build-up activities which will culminate in the national tree planting season launch. The theme for the tree planting season is, “**Panda Miti, Boresha Maisha**”.

The build-up tree planting activities will be conducted in Bungoma, Kakamega, Vihiga, Kisumu, Siaya, Migori, Kisii, Nyamira for the Western region of Kenya; while the build-up activities for the Eastern region whose main tree planting season is the short rains, will be done in the following 14 counties: Kitui, Narok, Tana River, Embu, Kajiado, Garissa, Tharaka Nithi, Makueni, Wajir, Meru, Machakos, Mandera, Isiolo and Marsabit.

The Cabinet Secretary, Ministry of Environment and Forestry (MEF) has constituted national teams from among its departments and Semi Autonomous Government Agencies which will move to the identified counties and link-up with County-level tree planting committees led by County Commissioners and Kenya Forest Service officers, County Governments and the other National Government officers in the counties to create synergies and to sensitise Kenyans on the need to undertake tree growing by taking advantage of the short rains.

Through the participation and commitment of the national and county governments, land owners, the private sector, communities and the civil society organisations, Kenya will be able to move rapidly towards achievement of the constitutional target of 10% national forest cover. His Excellency the President has directed that all efforts for the achievement of this national forest cover be made so that this constitutional threshold can be achieved by 2022.

Subsequently, through his circular **Ref. No. OP/CAB/26/1/3A** dated **4th June 2018** and addressed to **all Cabinet Secretaries** and the **Hon. Attorney General**, the **Head of Public Service** directed all parastatals to allocate 10% of their CSR budgets for the raising of tree seedlings for distribution to Kenyans to support implementation of this directive. In-order to effectively implement the directive, consultations, collaboration and creation of synergy on this national agenda of tree growing is the way to go.

The MEF estimates that in order to realize the 10% national forest cover by 2022, the government, private sector and communities require to produce and plant 360 million seedlings every year for the next 5 years (Total 1.8 billion seedlings for 5 years). The estimated cost of producing these seedlings at a conservative cost of KES 20 per seedling is KES 7.2 billion annually (Total KES 37.5 billion for next 5 years).

In this regard, the Ministry of Environment and Forestry will continue to mobilise Kenyans to promote investments in tree growing. The contribution of other ministries in

this noble cause is vital. This is why the MEF is appealing to all the Ministries to set aside resources to support investments in tree growing to attain the 10% forest cover, and the achievement of the big 4 agenda.

As we move to implement tree planting build-up activities and the national launch for the 2018 short rains, my ministry will continue to encourage Kenyans to devote land, labour and other resources for tree growing and environmental conservation as part of the wider agenda for promoting environmental sustainability.

2. PROGRAMME FOR THE 2018 TREE PLANTING CAMPAIGN

This tree planting build-up roll-out programme is designed to mobilize Kenyans mainly in the regions whose main tree planting season is the short rainfall season so that as many trees as possible are planted during the current short rains throughout the republic.

Table 1: Programme for rolling out 2018 short rains tree planting build-up activities and season launches in the 47 counties

3. SEEDLINGS AVAILABILITY FROM MINISTRY OF ENVIRONMENT AND FORESTRY

The Ministry of Environment and Forestry (MEF), her SAGAs, and Departments has invested in seedlings production throughout the country, while also providing technical support to the private sector for investment in tree nurseries. In KFS tree nurseries, **20,136,610 seedlings** have been produced of which **4,659,444 are plantable**.

The seedlings which are available under the control of the MEF is as follows;

S/No	Institution	No. of seedlings
1.	Urban Rivers Restoration Program	557,000
2.	Kenya Forest Service	4,659,444
3.	Kenya Forestry Research Institute (Available in Regional Centres)	50,000
4.	Kenya Water Towers Agency (Available in regional offices)	200,000
	Total	5,466,444

4. SEEDLINGS AVAILABILITY FROM PRIVATE SECTOR

In the course of implementation of government policy on forest conservation and management, the MEF has been working very closely with the private sector for in promoting investment in tree seedlings production. The private sector, institutions, tree growers associations, youth and women groups, as well as community forest associations have so far produced **76,327,051** seedlings in 2,591 tree nurseries out of which **36,674,667** are plantable during this short rainfall season.

For the information of the farmers, investors, ministries and government agencies who may wish to buy the tree seedlings, these can be procured from the private tree nurseries at average prices as follows;

	Potted seedlings	Average seedlings prices (KES)	
		Exotics	Indigenous
1.	Small size	20 - 30	40 - 60
2.	Medium size	30 - 50	60 - 100
3.	Ceremonial	50-80	100- 200
4.	Bamboo	-	200 - 300
